DETAILED ACTION

The indicated allowability of claim 31 is withdrawn in view of a newly cited reference. The Examiner sincerely apologizes for any inconvenience caused to the Applicants by this action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21-44 are rejected under 35 U.S.C. 102(b) as being anticipated by LaSalle et al. (US 5,976,147).

Regarding claims 21-33 and 39-44, LaSalle et al. disclose a modular system or “prosthesis evaluation assembly,” including a trial tray 12 with one or more apertures to cooperate with a handle or “alignment handle,” fixation pins 14 to fix trial tray 12 to a tibia via apertures 32 in trial tray 12, an evaluation member (16,18) having a number of spikes 86 and a tool or drill guide 22 having a bore (Figs. 1-5, col. 1, lines 6-11, col. 4, lines 5-67, col. 5, lines 1-65 and col. 7, lines 24-42).

The method steps of claims 34-38 are inherently performed when the LaSalle et al. modular system is used during bone preparation and trial reduction phases of joint arthroplasty surgery.

Response to Arguments

Applicant's arguments submitted under “REMARKS” in Paper No. 5, filed on February 9, 2004, with respect to claims 21 and 26 have been considered but are moot in view of the new ground(s) of rejection.

Art Unit: 3732
